Serbia gb31241 solar battery cabinet lithium battery pack

Overview

What is gb31241-2014?

GB31241-2014 "Safety Requirements for Lithium Ion Batteries and Battery Packs for Portable Electronic Products" is mainly for mobile electronic products that are not more than 18kg and are scheduled to be carried by users.

What is the gb31241-2014 standard for mobile power distributors?

At the same time, Jingdong requires mobile power distributors to use the GB31241-2014 standard for quality inspection reports before they can be sold. Compared with GB/T 18287-2013 and other standards, GB31241-2014 pays more attention to the safety of lithium-ion batteries, except GB/.

What is the difference between gb31241-2014 and GB/T 18287-2013?

Compared with GB/T 18287-2013 and other standards, GB31241-2014 pays more attention to the safety of lithium-ion batteries, except GB/. T18287 requires external short circuit, overcharge, over discharge, low pressure, temperature cycle, vibration and other test items.

What are battery enclosures & cabinets?

Battery enclosures and cabinets are a safe way to store batteries and to protect them from the elements as well as providiing a line of defense against theft.
