Whether you're adding a slim outdoor broom cupboard to your patio, a lockable storage cabinet outdoor for pool gear, or an outdoor wall cabinet alongside a Colorbond steel shed, this guide shows you what lasts in Australian conditions—and how to get it council-ready and wind-rated where needed. Are locksafe stainless steel cabinets suitable for mining?

Locksafe provides a range of quality stainless steel cabinets manufactured for mining conditions. Our in house design and manufacturing capability allows flexibility in building our isolation cabinets and stations to suit your needs. Below are some of our most popular cabinets.

Do mining sheds need quality assurance?

Mining sheds often require a higher level of quality assurance than standard industrial sheds. This can include industry-specific testing and comprehensive Inspection and Test Plans (ITPs). Using high-quality components, such as galvanised premium quality steel for structural safety, is essential.

How should a mining shed be designed?

Mining sheds must be designed to suit the specific needs of a mine site. Lube sheds, for example, might require particular design features to contain chemical spills. Maintenance sheds might need to be planned for thicker concrete slabs to handle heavy jacking loads of dump trucks and earthmoving equipment.
