Small smart energy cabinet HJ-SG-S type: tower/wall-mounted installation, small size, modular design, this series of products can integrate photovoltaic, wind clean energy, energy storage batteries, configuration 2U integrated hybrid power system, output DC48V (Including intelligent circuit.

Supplier highlights: This supplier mainly exports to Maldives, United States, and Zambia, offering full customization, design customization, and sample customization services. The products are certified with a positive review rate of 89.9%.

Backup power: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Enhance power system stability: Smooth out the intermittent output of renewable energy by storing electricity and dispatching it when needed. Optimizing the use of renewable energy: Maximize.
