Overview

Who are the top 10 PV module suppliers in 2024?

The Top 10 PV module suppliers (ranked by shipment of own-branded product) in 2024 were all Chinese companies, for the second year in a row. It now seems a long time since the likes of First Solar or Hanwha featured in the Top 10 shipment rankings. To get a look-in these days, annual shipment volumes need to be in the range of 25GW and above.

What is solar PV module market?

Solar PV Module Market was valued at USD 280.5 billion in 2023 and is anticipated to grow at a CAGR of over 8.2% between 2024 and 2032. It is a system that converts sunlight into electricity using photovoltaic cells. These modules are composed of multiple interconnected solar cells, typically made from silicon or other semiconductor materials.

What are the key characteristics of global PV module manufacturers?

This report, drawing on the latest developments in the 2025 market, analyzes the key characteristics of the top 10 global PV module manufacturers across four dimensions: technological capability, vertical integration, international presence, and performance in the European market.

How can solar PV companies transform customer interactions and engagement?

Solar PV companies can transform their customer interactions and engagement practices on multiple fronts. The first suggestion concerns the diversification of channels to market the technology.
