

Spanish energy storage power station opens

Overview

Iberdrola Spain has begun commissioning the 225 MW Valdecañas pumped hydro energy storage (PHES) plant which is hybridized with a 15 MW / 7.5 MWh battery energy storage system.

Iberdrola Spain has begun commissioning the 225 MW Valdecañas pumped hydro energy storage (PHES) plant which is hybridized with a 15 MW / 7.5 MWh battery energy storage system.

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems. The goal is to improve how Spain uses renewable energy.

Iberdrola Spain has begun commissioning the 225 MW Valdecañas pumped hydro energy storage (PHES) plant which is hybridized with a 15 MW / 7.5 MWh battery energy storage system. Spanish utility Iberdrola has begun commissioning the first stage of the Valdecañas pumping station near Cáceres, in the.

It will enable reversible energy storage of 16 million kWh equivalent to the average daily consumption of 4 million people. The project, making use of existing facilities, will optimise the management of water resources without affecting other users of the Tagus River. It also has a grant of 44.9.

EUROPE'S biggest pumped storage facility with enough capacity to supply 10 million people with power for a day is earmarked for Spain. Spanish giant Iberdrola is set to build the €1.5bn Conso II project at Vilariño de Conso near Ourense, Galicia. [READ MORE: Is there a dark side to Spain's green.](#)

Spain is poised to lead Europe in renewable energy by constructing the continent's largest pumped storage power plant. Managed by Iberdrola, the Conso II project in Ourense, in Galicia, will involve an investment of over 1.5 billion euros. The facility will connect two reservoirs using the area's.

PVTIME – Spain's Ministry for Ecological Transition and Demographic Challenge (MITECO) has recently announced the final selection results for energy storage projects under the European Regional Development Fund (ERDF) for the period

2021 to 2027. Following the receipt of 1,750 applications, the.
