

Ukraine energy storage solution

Overview

This project consists of six battery energy storage systems that can collectively store 400 MWh of electricity, sufficient to supply power to 600,000 homes for two hours. The systems are intended to enhance Ukraine's grid stability and resilience, especially ahead of the winter.

This project consists of six battery energy storage systems that can collectively store 400 MWh of electricity, sufficient to supply power to 600,000 homes for two hours. The systems are intended to enhance Ukraine's grid stability and resilience, especially ahead of the winter.

SHENZHEN, China, January 6, 2026 – SINEXCEL announced the successful commissioning of its 1.5MW/3MWh energy storage application in Ukraine, a key milestone for the company in Europe. This project highlights SINEXCEL's ability to provide adaptable energy storage solutions, crucial for maintaining.

KYIV, Ukraine and AMSTERDAM, Jan. 13, 2025 (GLOBE NEWSWIRE) -- DTEK, Ukraine's largest private energy company, has selected Fluence Energy B.V., a subsidiary of Fluence Energy, Inc. (NASDAQ: FLNC) ("Fluence"), a global market leader delivering intelligent energy storage, operational services, and.

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ranging from 20 MW to 50 MW and connected to the power grid in the Kyiv and Dnipropetrovsk regions.

Together, they are building a 200 MW / 400 MWh battery energy storage system just outside Kyiv - a project scheduled to go commercial in October 2025 and poised to reshape how Ukraine balances its grid. From the very first LFP cells rolling off the production line, this system has been designed for.

Ukraine's energy storage market is experiencing an explosive transformation, driven from the ground up by sheer necessity. What was once a niche sector is now a critical lifeline and a strategic investment frontier, emerging directly from the heart of a profound national crisis. This is not merely.

Fluence and DTEK complete Ukraine's largest battery storage project, enhancing

energy stability with a capacity of 200 MW. Fluence Energy, in partnership with DTEK Group, has successfully completed Ukraine's largest battery-based energy storage project, with a capacity of 200 MW, in under six. Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

How many gas storage facilities are there in Ukraine?

Ukraine has 12 gas storage facilities operated by Ukrtransgaz. Five of these are located in Western Ukraine, two in Central Ukraine and five in Eastern Ukraine. In addition one gas storage, the Hlibivske storage facility, operated by Chornomornaftogaz, is located in Crimea and currently is not controlled by Ukraine authorities.

Why is DTEK investing in Ukraine?

"Despite the war, we invest in Ukraine's recovery and growth. Our energy sector, having withstood countless Russian attacks, now gains new momentum," owner of DTEK and Ukraine's richest man, Rinat Akhmetov, said in a press release.
