The much anticipated capacity market auction for 2029 conducted by Polskie Sieci Elektroenergetyczne (PSE) ended in the seventh round with a price of PLN 264.90/kW/year (\$65/kW/year). Such a clearing price rendered gas projects uneconomical and left significant room for battery storage systems to.

Results of the last capacity market auctions As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased. The auction held by Polskie Sieci.

Conducted by Polskie Sieci Elektroenergetyczne (PSE), the capacity market (CM) auction for 2029 just concluded after awarding over 12 GW of CM projects, scheduled to start in 2029. The CM has been a big driver of the grid-scale energy storage market in Poland The closing price at the end of the.

Pacific Green has secured its first capacity market contract in Poland for a 50MW / 200MWh battery energy storage (BESS) project. - The contract, awarded in last week's T-5 Capacity Market auction has been secured at the clearing. Is Poland moving towards battery energy storage systems (Bess)?

As.

BloombergNEF recently noted a global average price for BESS (without PCS or EMS) of US\$125 per kWh, for example. Kubik suggested the tender's requirements implied it covered an AC block solution. Energy-Storage.news looked at the move towards PCS-integrated AC blocks in a recent article (Premium.

The Battery Energy Storage Systems (BESS) market in Poland is experiencing significant growth and transformation in Q1 2025. Key investments from major industry players, such as LG Energy Solution and Greenvolt Group, underscore a robust commitment to enhancing Poland's energy storage capacity. Is Poland moving towards battery energy storage systems (BESS)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

How many MW rated energy storage systems are there in Poland?

The capacity obligations for these projects ranged from 1.2 MW to 153 MW rated power, with an average capacity of around 30 MW. The decision to reduce the de-rating factor for energy storage systems in the last capacity market auction in Poland from 95 percent to 61 percent did not prove detrimental to the market.

Where are BESS projects located in Poland?

The geographical distribution of BESS projects in Poland is concentrated in regions with high renewable energy potential, such as Lower Silesian, Masovian, and Pomeranian. These areas are pivotal for Poland's energy transition, offering the infrastructure necessary for significant BESS installations.

Is energy storage a profitable business in Poland?

Inflation indexed government guarantees for up to 17 years give solid footing to make energy storage a lucrative business in Poland. Our company is able to comprehensively advise on a business model that maximizes the return on investment in energy storage as a business in Poland.
